

Veer Mehta

Gandhinagar, Gujarat | veeramehta09@gmail.com | linkedin.com/in/viirmehta | github.com/veer-mehta

EDUCATION

Pandit Deendayal Energy University

Bachelor of Technology in Computer Science and Engineering (B.Tech CSE)

July 2023 – May 2027

GPA: 9.06 / 10

WORK EXPERIENCE

Freelance Software Developer

Copilot Data Solutions, Pennsylvania, USA (Remote)

June 2024 – December 2024

- Automated UI interactions across multiple POS software systems using **Selenium**, eliminating manual data entry workflows.
- Integrated a **natural language layer** enabling plain-text commands to trigger structured operations across POS modules.
- Built the **Selenium-to-ML pipeline** bridging front-end UI automation with backend NLP-driven input processing.

PROJECTS

H2Cred – Hydrogen Credit Registry dApp

Solidity, Ethereum (Sepolia), React.js, Express.js, MongoDB

github.com/veer-mehta/h2cred

- Deployed **Solidity smart contracts** for on-chain issuance and trustless transfer of hydrogen credits.
- Integrated **Stripe payments** with parallel on-chain ownership transfer triggered on fiat settlement.
- Designed **event logging** to support transparent transaction tracking and off-chain indexing.

Deep Q Learning Agent for Card Game

Python, PyTorch, Reinforcement Learning, Lua, IPC

github.com/veer-mehta/joqer-engine

- Trained a **Double DQN** agent over 20,000 episodes to learn optimal play and discard strategies.
- Built a real-time **Lua–Python bridge** for non-blocking in-game inference via threaded IPC.
- Shaped **reward functions** to produce emergent behavior where the agent exhausts discards before committing to a hand.

Distributed Cloud Storage over Google Drive

Python, Google Drive API, OAuth 2.0, CLI

github.com/veer-mehta/distributed-drive-client

- Built a CLI tool that **splits, encrypts, and distributes** file chunks across multiple Google Drive accounts.
- Handled per-account **OAuth token management** and round-robin chunk distribution across accounts.
- Maintained **metadata registries** to support full file reconstruction, deletion, and folder management.

ACHIEVEMENTS & CERTIFICATIONS

- Competed at the national level in the **World Robot Olympiad (WRO)**.
- Qualified **GATE CS 2026** with AIR 7970 (Score: 495).
- Core Game Development Member, **Encode Programming Club**, PDEU (2025).
- Completed **Entrepreneurship and Incubation** certification from NPTEL, offered by IIT Bombay.

TECHNICAL SKILLS

Languages	Python, JavaScript, TypeScript, C/C++, Java, Lua
Web & Backend	React.js, Next.js, Node.js
Blockchain	Solidity, Ethereum, Ethers.js
Databases	PostgreSQL, MySQL, MongoDB
DevOps & Tools	Linux, Docker, Git, GitHub, WireGuard, Postman
ML & AI	PyTorch, NumPy, Matplotlib
